Our Values:

Care

Respect

Integrity

Excellence

Leadership

Education/Support

Ongoing education is well supported and promoted at SWH and includes, but not restricted to 7 paid studyleave days, case studies/learning packages and clinical competencies.

Direct Clinical support, career structure/ advice, professional development and regular performance reviews are all included.

Further Opportunities

On completion of the Graduate Nurse Program we offer opportunities for further career development at South West Healthcare in the general ward areas as well as specialist areas.
