

Glucose Tolerance Test

Pre Test Preparation

- Do NOT eat or drink for 12 hours prior to the time you are booked in.
- Keep your water intake as normal during this time.
- Do NOT smoke during this time.

During the Test

On arrival at our collection centre, a blood sample will be taken from you by one of our trained collecting staff. You will then be asked to drink a sweet glucose drink and blood will be collected one and two hours later. May we suggest you bring a book to read to help pass the time and a snack to have after your test.

Please note: You will be required to remain in the collection centre for the duration of the test.

Find a collection centre.
